

GARDEN SOLAR LIGHT SPECIFICATIONS

Homeowners may install garden solar lighting in accordance with the following:

Interior Units:

- Six (6) maximum lights on front side of unit.
- All lights must be installed in mulched beds only.
- Maximum height two (2') feet tall.
- Fixture color – black only.
- Light bulbs – LED bulbs or warm white bulb. Absolutely no colored bulbs or lenses.
- Lights must be kept in good condition and repair or will be asked to remove.

End Units:

- All of the above, with the exception of three (3) additional lights for side of unit beds.

No low voltage or any type of lighting that requires wiring.

As long as compliance with these regulations is met, no Association written approval is required. The Association reserves the right to determine whether the lights are being kept in good repair and condition.
